WESTERN DIVISION
NAVAL FACILITIES ENGINEERING COMMAND
P.O. BOX 727
SAN BRUNO, CALIFORNIA 94066

IN REPLY REFER TO:

5090

Ser 1142C/MOFFETT/NAS

24 DEC 1987

Mr. Don Palawski
United States Fish and Wildlife Service
Division of Ecological Services
2800 Cottage Way, Room E-1803
Sacramento, California 95825

Dear Mr. Palawski:

Remedial Investigation/Feasibility Study (RI/FS) planning documents are being prepared for Naval Air Station (NAS), Moffett Field, California. The National Oceanic and Atmospheric Administration (NOAA) has commented on the NAS Moffett Field, Sampling Plan dated June 1987. NOAA's comments, enclosure (1), expressed concern for the National Wildlife Refuge. Since then the Sampling Plan has been updated, December 1987, to follow the Environmental Protection Agency (EPA) procedure and to include additional sites. Enclosure (2) is the five volume Work Plan set dated December 1987 for NAS Moffett Field.

Per conversation between Joe Skorupa of your office and Chloe Jue of my staff on 23 Dec 87, the Navy informed the United States Fish and Game, Ecological Services office of their intentions to finalize RI/FS planning documents and wanted to know the extent of your office's involvement during the RI/FS. NAS Moffett Field is working under a tight time schedule and would like to know what your office's involvement will be by January 5, 1988. If you have comments on the Work Plan, we request that comments be submitted to the Regional Water Quality Control Board (RWQCB) by January 15, 1988. It is our understanding that the RWQCB will solicit and consolidate comments from involved agencies and provide comments to this Command.

Should you have any questions regarding this matter, the point of contact is Commander, Western Division, Naval Facilities Engineering Command (Attn: Chloe Jue, 1142C, Autovon 859-7494 or Commercial 415/877-7494).

Sincerely,

for 
R. E. RAMOS
Head, West Central Environmental Section
