

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY  
REGION IX  
215 Fremont Street  
San Francisco, Ca. 94105

15 MAR 1988

Captain C.T. Moyer  
Commanding Officer  
Naval Air Station Moffett Field  
Moffett Field, CA 94035-5000

Dear Captain Moyer:

This letter is to confirm the phone conversation between Lewis Mitani of this office and Ensign John Heckmann, Public Works Office, of your staff on 11 March 1988 for scheduling a tour by Mr. Gordon Davidson on 22 March 1988 of the sites to be included in the upcoming Remedial Investigation for Naval Air Station Moffett Field (NAS Moffett Field).

Gordon Davidson is the Environmental Protection Agency's (EPA) Deputy Director of the Federal Facilities Compliance Task Force (FFCTF) within our headquarters Office of Solid Waste and Emergency Response (OSWER). OSWER is responsible for the development and implementation of all national policies and guidelines for two major programs: the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) and the Resource Conservation and Recovery Act (RCRA). The FFCTF is charged with the responsibility of monitoring and ensuring compliance by Federal Facilities with CERCLA and RCRA.

Mr. Davidson is coming to EPA Region 9 to meet our Regional staff responsible for implementing environmental programs at Federal Facilities. As part of his visit he would like to tour a Federal Facility on the Superfund National Priorities List (NPL). We are interested in conducting this tour at NAS Moffett Field because of your proximity to EPA Region 9 office and because your installation is fairly typical of the multimedia, multi-contamination sites to which Department of Defense installations are responding.

We would like to visit NAS Moffett Field on Tuesday, 22 March 1988 for a 1 1/2 - 2 hour site tour of the base beginning at 10:00 A.M.. Mr. Davidson will be joined by Julie Anderson, Acting Chief, Federal Enforcement Section and Lewis Mitani, EPA's Remedial Project Manager for NAS Moffett Field.

302

EPA/NAVY 9

We appreciate your cooperation and efforts in accommodating EPA's request on such limited notice. If you have any questions concerning Mr. Davidson's visit please contact Lewis Mitani at (415) 974-7836.

Sincerely,

  
Jerry Clifford  
Program Manager  
Office of Superfund Programs
