Toxic Control Unit
2151 Berkeley Way, Annex 7
Berkeley, CA 94704

Dear Mr. Cox:

Pursuant to the Defense Environmental Restoration Program as established by Section 211 of the Superfund Amendments and Reauthorization Act (SARA) of 1986, 10 U.S.C. Sections 2701 to 2707, we are establishing a Technical Review Committee (TRC) to provide comments on our proposed actions regarding site remediation conducted at NAS Moffett Field under the Navy's Installation Restoration Program. At a minimum, the TRC should include one representative from the Department of Defense, the Environmental Protection Agency, appropriate State and local authorities, and a public representative of the community involved.

We request that you designate a member to represent your agency on our TRC.

Please provide the name, title, and telephone number of your representative by May 31, 1989. You will be notified in the near future of the date of the first TRC meeting. The purpose of this meeting will be to set the TRC's agenda and to discuss its charter. The point of contact is our Environmental Coordinator, Mr. Michael Cain, code 189, telephone (415) 966-5744. Your assistance is greatly appreciated.

Sincerely,
