Attention Kathy Nakazawa, Code 1813KN

This is to formally request that my name remain on your distribution list for quarterly reports and other pertinent documents related to the ongoing groundwater quality investigation being performed at Moffett Field Naval Air Station.

I represent the Santa Clara Valley Water District who is charged as the custodian of the County's groundwater basin. It's important for us to stay abreast of all events which might have an influence in our operations.

Thank you.

Thomas I. Iwamura  
Engineering Geologist  
Groundwater Protection Division
