Subj: ABANDONED WELL NUMBER A2301 NEAR NAS MOFFETT FIELD

As you are aware, the Navy is in the process of identifying, evaluating, and sealing abandoned wells on Naval Air Station (NAS), Moffett Field.

One of the abandoned wells, identified as A2301 in our work plans, had been scheduled for evaluation and closure under our Installation Restoration program. However, a recent survey has confirmed that the well is not on NAS Moffett Field property, and is actually located on property owned by Santa Clara County.

This letter is to notify you that the subject well cannot be sealed using Department of Defense funds. However, it may be possible to retain the well in our contract specifications and seal it using the Navy contractor if appropriate funding can be provided.

The Navy will keep the closure of this well as an option to our contract; however, we will not authorize the contractor to implement the closure until the funding issue is resolved. Please contact Mr. Stephen Chao, Code 1813SC, at (415) 877-7512, for further discussion.

Sincerely,
