Dear Mr. Chao:

Pursuant to Section 15 of the Naval Air Station Moffett Field (NASMF) Federal Facilities Agreement (FFA), Roberta Blank will be the Environmental Protection Agency's remedial project manager (RPM). EPA's alternate RPM will be the Chief, Federal Enforcement Section II, a position that is currently vacant. When a new section chief is selected, the Navy will be notified in a separate letter. The changes in EPA's RPMs will be effective as of 17 February 1992.

As a result of our recent re-organization, I have been reassigned to work with a newly listed federal facility. Our re-organization has resulted in the formation of the Federal Facility Enforcement Branch and the transfer of NASMF to a another section. Both, Roberta and the Section Chief for the Federal Enforcement Section II will have a new mail code of H-9-2. To facilitate the delivery of documents and correspondences, our new mail code should be included as part of our current mailing address.

If you have any questions please contact Roberta at (415) 744-2385.

Sincerely,

Lewis Mitani
Remedial Project Manager
