Subj: Site Wide Ecological Assessment Work Plan Outline for
Naval Air Station, Moffett Field

Dear Mr. Chao:

The U.S EPA has reviewed the Draft Final Additional Sites Investigation Report. The Report has addressed most of the agencies comments made on the previous draft report. U.S EPA concurs with the recommendation that additional soil sampling and installation of groundwater monitoring wells be performed at these sites.

The Navy should prepare a schedule which includes the submittal dates for the Work Plan and the Sampling Plan for these additional sites activities. In addition the Navy should specify when Remedial Investigation Report these additional sites will be included in. The schedule should be submitted for review 30 days after the receipt of this letter.

If you have any questions, please contact me at (415)744-2386 or Roberta Blank at (415)744-2385.

Sincerely,

A handwritten signature in black ink, appearing to read "Lida Tan".

Lida Tan
Remedial Project Manager
