Subj: Meeting Agenda for May 25, 1993

Dear Mr. Gill:

This letter is to confirm our meeting scheduled for May 25, 1993 at 9:30 a.m., in the offices of PRC Environmental Management, Inc. located at 120 Howard Street, Suite 700, San Francisco, CA. The Navy would like to discuss following topics:

- (1) Acceptable risk levels and risk ranges;
- (2) Future land use scenarios and appropriate receptor populations; and
- (3) Applicable or relevant and appropriate requirements (ARARs) and derivation of risk-based concentrations (RBCs).

These topics are raised in regard to particular issues at Naval Air Station, Moffett Field (NAS Moffett Field). However, there are program-wide implications for all these issues which must also be considered. The Navy is very interested in resolution of these issues as soon as possible in order to proceed with feasibility study and remedial design/remedial action activities at NAS Moffett Field.

Sincerely,

STEPHEN G. CHAO
Remedial Project Manager
