Subj: NAS Moffett Field Preliminary Assessment/Site Inspection Work Plan

Dear Mr. Gill:

In confirmation of our conference call of May 18, 1993, the Navy requested an extension for the submittal of the Draft Preliminary Assessment/Site Inspection (PA/SI) to June 14, 1993.

As discussed, the request was based on the need to assimilate PA data and coordinate ongoing PA/SI efforts at NAS Moffett Field prior to submittal of the PA/SI work plan. Currently, Navy, National Aeronautics and Space Administration (NASA), Boeing Aerospace Operations, Inc., Air Force, and various affiliated subcontractors (including PRC, Montgomery Watson, URIBE and Associates, Chemical Waste Management, and Tetra Tech, Inc.) are involved in PA/SI activities at NAS Moffett Field. The separate PA/SI activities are intended to satisfy the needs of the installation restoration program, the Resource Conservation and Recovery Act (RCRA) program, base closure and land transfer programs. A meeting has been scheduled on June 2, 1993, to discuss the PA/SI activities to minimize overlapping activities and coordinate efforts.

The extension will enable development of a comprehensive document, which includes data and recommendations from other PA/SI activities. Coordination of PA/SI activities should facilitate the investigations and ultimately accelerate the PA/SI schedule.

Should you have any questions or concerns about the request, I can be reached at (415) 244-2516.

Sincerely,
