

DEPARTMENT OF THE NAVY
THE ASSISTANT SECRETARY OF THE NAVY
(SHIPBUILDING AND LOGISTICS)
WASHINGTON, D.C. 20360-5009

3 OCT 1989

The Honorable Tom Campbell
House of Representatives
Washington, DC 20515-0512

Dear Mr. Campbell:

At your request, I am forwarding a copy of the recently completed Federal Facility Agreement between the Department of the Navy, Region IX of the Environmental Protection Agency (EPA), the California Department of Health Services and the California Regional Water Quality Control Board. This agreement addresses the Navy's cleanup of the National Priority List (NPL) site at Naval Air Station (NAS) Moffett Field.

Since completing this agreement, the Navy has been working closely with EPA and the potentially responsible parties for the nearby Middlefield-Ellis-Whisman (MEW) NPL site to coordinate cleanup efforts where the MEW contamination has spread to NAS Moffett Field. It is our intent to identify the extent of contamination from our activities at Moffett Field and clean up that contamination as quickly as possible using the Defense Environmental Restoration Account created and funded by Congress for these purposes. We will do our best to keep pace with the cleanup schedule of the MEW site.

I appreciate your interest in this matter. Please feel free to contact me if you need any additional information.

Sincerely,

Handwritten signature of Frank W. Swofford in cursive script.

FRANK W. SWOFFORD

By Direction of the Secretary of the Navy
