Re: OU2 RI Baseline Risk Assessment Outstanding Issues

Dear Mr. Chao,

The U.S. Environmental Protection Agency (EPA) has reviewed the Navy's Response to Comments (from IT, dated April 21, 1993) on the subject issues which were sent to you in a letter from EPA on March 2, 1993. EPA agrees with these responses. This marks the resolution of the informal dispute originally invoked on September 17, 1992 pursuant to Section 10 (Resolution of Disputes) of the Federal Facilities Agreement. As agreed during the conference call of April 14, 1993, the complete OU2 RI document with the Baseline Risk Assessment can now be finalized by May 5, 1993. As understood, this will allow the Navy to deliver a draft OU2 Feasibility Study document according to the latest FFA schedule, that is, by May 19, 1993.

The lessons learned from this informal dispute can hopefully be applied to future Remedial Investigation / Baseline Risk Assessments to be performed at Moffett Field. Please call me at 415-744-2383 if you have any questions.

Sincerely,

A handwritten signature in cursive script that reads "Michael D. Gill".
