Subj: SUBMITTAL OF DRAFT BASE REALIGNMENT AND CLOSURE (BRAC)
CLEANUP PLAN (BCP) (March 1995) FOR MOFFETT FEDERAL AIRFIELD, CA

Encl: (1) BCP for Moffett Federal Airfield of March 1995

1. The second edition of the BCP, enclosure (1), is hereby transmitted for your information. The first edition was issued to you on 29 April 1994. This final version of the current edition incorporates comments received from the draft version dated 9 December 1994. Through separate correspondence, the BCP is also being forwarded to the Naval Facilities Engineering Command headquarters for further endorsement through the Navy chain of command to the Office of the Secretary of Defense.

2. Appendix A of the BCP, which shows actual, current and projected environmental remediation and compliance costs for the base, is currently under development and will be provided at a later date. The Navy is now using a new and more consistent Navy-wide methodology for estimating costs for environmental work. This method, known as Cost-to-Complete, has been used successfully at non-closure bases and is being applied for the first time at closing bases. Appendix A will also show funded and unfunded requirements to reflect current budget submittal information to Congress. Schedules currently shown in Section 5 of the BCP should not be affected by any budget changes as these schedules were developed assuming unconstrained funding for all current and future requirements. We anticipate issuing Appendix A to you by May 1995.

3. Please direct any questions you may have to the installation's BRAC Environmental Coordinator (BEC), Mr. Stephen Chao at (415) 244-2583, or to Mr. Hubert Chan at (415) 244-2562.

4. I thank you for your participation and support and look forward to continually working with you on environmental cleanup and compliance at our closing bases.

R. P. BUCHHOLZ
ACTING
