900 Commodore Way, Bldg. 101  
San Bruno, CA. 94066-2402

Re: *Draft Final Operable Unit 1 Proposed Plan* Response to Comments,  
dated April 10, 1995

Dear Mr. Chao,

The U.S. Environmental Protection Agency (EPA) has received the subject response to comments and finds these responses satisfactory. The proposed plan presenting a three foot soil cap as the preferred alternative for both Sites 1 and 2, with some slight variations for each, is acceptable to EPA. The document can be finalized and should be submitted by May 29, 1995. Please be sure to incorporate all changes from the response to comments in the final text. If you have any questions, please call me at 415-744-2383.

Sincerely,

A handwritten signature in cursive script that reads "Michael D. Gill".

Michael D. Gill  
Remedial Project Manager  
Federal Facilities Cleanup Office
