

August 17, 1995

From: Moffett Field Restoration Advisory Board (RAB)
Technical, Historical, and Educational Committee

To: **PARTIES INTERESTED IN OPERABLE UNIT 1, MOFFETT FIELD**
See attached distribution list

Subject: Comments on the May 15, 1995, report:
Operable Unit 1, Final Feasibility Study
Moffett Federal Airfield, California

At the suggestion of Tamara Zielinski of the California Integrated Waste Management Board, the Technical, Historical, and Educational (THE) Committee of the Moffett Field Restoration Advisory Board (RAB) is distributing this summary package of comments on the May 15, 1995, report, *Operable Unit 1, Final Feasibility Study, Moffett Federal Airfield, California*. This summary was distributed as an audience handout to support a presentation given by the THE Committee at the RAB meeting of August 10, 1995.

This distribution is being made principally to participants in an August 9, 1995, meeting hosted by Chein P. Kao, Chief of the Base Closure Unit of the California Department of Toxic Substances Control (DTSC). Invited participants in the August 9 meeting included the Navy, the Navy's consultants, local, state, and federal regulators, and representatives of the THE Committee and the Silicon Valley Toxics Coalition. Many participants in the August 9, meeting are not regular participants in the Moffett Field RAB and so may not otherwise see this material, even though the material may be of interest to them. In addition, this handout package is being distributed to other persons who, in the opinion of THE Committee members, may have an interest in community concerns with the Navy's plans for closing landfills at Moffett Field.

Participants in the August 9 meeting who are expected to have received the summary package at the August 10, 1995, RAB meeting, or through their routine association with participants in that RAB meeting (eg. Navy consultants) are receiving this transmittal memo without the handout package. If any such party has not received the handout package and wants a copy, they can obtain one from James McClure (Harding Lawson Associates, 415-884-3280).

Members of the THE Committee who have volunteered to answer questions about the Committee's compilation of OU1 concerns are:

James McClure - 415-884-3280
Cynthia Sievers - 415-961-6963
David Glick - 408-987-0210
Julio Valera - 415-941-5551.
