 Engineering Field Activity, West
 Naval Facilities Engineering Command
 Attn: Mr. Stephen Chao, Project Manager
 900 Commodore Drive, Bldg. 101
 San Bruno, California 94066-2402

Dear Mr. Chao:

OUI REVISED PROPOSED PLAN, DECEMBER, 1995, MOFFETT FEDERAL AIRFIELD

Enclosed please find comments prepared by the California Integrated Waste Management Board (CIWMB) on the revised OUI Proposed Plan. Please include the Navy's responses in the Responsiveness Summary. If you have any questions regarding these comments, please call me at 510-540-3830.

Sincerely,

C. Joseph Chou
 Remedial Project Manager

Subject: Review of the Moffett Federal Airfield, Operable
Unit 1, Modified Proposed Plan

Dear Mr. Chou:

California Integrated Waste Management Board (CIWMB) staff have reviewed the Moffett Federal Airfield Superfund Site Proposed Plan for the Operable Unit 1 Landfills (Proposed Plan). CIWMB staff has the following concerns regarding the Proposed Plan.

The proposed capping configuration shown on Figure 4 contains multiple layers with no dimensions. Staff is concerned about the excessive loading of the landfill slopes with all this material. The vegetative, biotic and drainage layer can be combined into one 12 inch layer that would meet state standards. Please justify the need for the additional layers that are in excess of the state standards and show that the additional load on the landfill slopes will not cause a stability or settlement problem.

No basis for the Cost Comparison, shown on Table 1 was provided. Please provide a cost estimate to justify the cost comparison on Table 1.

It has not been shown that the proposed control measure of landfill gas venting will not pose a potential health threat. Please provide modeling and risk assessment data to show that the vents will not pose a potential health threat.

If I you have any question regarding the items discussed in this correspondence please contact me at (916) 255-1197.

Sincerely,

Tamara Zielinski
Waste Management Engineer
