Final Phase II Site-Wide Ecological Assessment Report

Dear Mr. Chao:

Enclosed please find five (5) copies of the Draft Final Phase II Site-Wide Ecological Assessment Report. This document is in partial fulfillment of Contract No. N62474-88-D-5086, Contract Task Order 0326. The "Response to Comment" package will be delivered via e-mail next week, followed by regular mailing.

With your consent, we would like the opportunity to meet with the remediation project managers and technical reviewers from the agencies before they begin their formal review of the document. The purpose of the meeting would be to present our risk characterization methodology, report significant findings and familiarize the reviewers with the report format. This is a very large document with detailed descriptions of methodology often presented in appendices. We will discuss this with you next week.
