******* ANNOUNCEMENT *****
Public Comment Period for the Proposed Plan to
Clean Up the Former Naval Air Station Moffett Field
Site 27, Northern Channel
May 4 to June 4, 2004**

The U.S. Department of the Navy is requesting public comments on proposed cleanup actions being considered to clean up Site 27, the Northern Channel, drainage ditches, berms, and an associated debris pile at the former Naval Air Station (NAS) Moffett Field. The Navy is making this request in cooperation with the National Aeronautics and Space Administration (NASA), the U.S. Environmental Protection Agency, Region 9 (EPA), and the San Francisco Bay Regional Water Quality Control Board (RWQCB).

The Site 27 Proposed Plan summarizes four cleanup actions called alternatives. The Navy has proposed Alternative 2 as the preferred alternative. Alternative 2 includes removing contaminated sediments from the area and disposing of them at an approved facility. Alternative 2 is preferred because it meets the overall site cleanup goals, meets state and federal regulations, is cost and time competitive with other alternatives, will be effective for the long-term without maintenance and monitoring, is easier to implement than Alternatives 3 and 4, and is a proven remedy.

Public Comment Period: May 4 to June 4, 2004. The Navy is holding a 30-day public comment period so that the public may review and comment on the Site 27 Proposed Plan. Written comments should be mailed to Ms. Andrea Espinoza, BRAC Environmental Coordinator, at Southwest Division Naval Facilities Engineering Command, 1220 Pacific Highway, San Diego, CA 92132-5190; or e-mailed to andrea.espinoza@navy.mil. The Navy, NASA, EPA, and RWQCB will review and consider all comments before making a final decision on environmental cleanup actions at Site 27.

Public Meeting: May 20, 2004, 7:30 to 9 p.m. Written and oral comments may be made during the public meeting to be held at the Mountain View City Council Chambers, 500 Castro Street, Mountain View, Calif. An informational "open house" will take place from 6:30 to 7:15 p.m. before the public meeting begins.

Information Repository: The Site 27 Remedial Investigation/Feasibility Study and Proposed Plan, as well as other information about environmental cleanup under way at the former NAS Moffett Field, are available at the Mountain View Public Library, 585 Franklin Street, Mountain View, CA 94041; (650) 903-6887.

Administrative Record File: A copy of the Administrative Record File for Site 27 is available at the Mountain View Public Library, the Information Repository. The original Administrative Record File is maintained at Southwest Division Naval Facilities Engineering Command, 1220 Pacific Highway San Diego, CA 92132-5190. Documents from the file may be obtained by contacting the Administrative Records File Coordinator at (619) 532-3676. Reproduction fees may apply. The Administrative Record is a required legal file that contains all documents relied upon when selecting site clean-up actions.
