San Francisco, CA 94105

Subj: ADDITIONAL INFORMATION REQUESTED FOR NAVAL FUEL DEPOT,
PT. MOLATE, CA

Ref: (a) Letter from Mr. Donald C. White of US EPA to Lt. Jim Dolan of
NFD Pt. Molate, dated June 18, 1992

Dear Ms. Douglas:

1. This is the Navy's response to the additional information requested per reference (a).
2. Results of the sediment sampling and soil sampling in the treatment ponds area will be provided in the "Treatment Ponds Area Characterization and Interim Corrective Actions" report.
3. Expected completion date for this report is September 1992 and copies of this report will be submitted to you at that time.
4. At this facility, there are currently twenty-one (7 - administrative and clerical; 14 - operation and maintenance) persons working during the day and four (all operation and maintenance) persons working at night.
5. Should you have any questions regarding this matter, the point of contact is Mr. Paul Ko, Code 1813PK, (415) 244-2516.
