06 JUL 1992

From: Commander, Naval Training Center, San Diego

To: Commanding Officer, Southwestern Division, Naval Facilities
Engineering Command (Code 18)

Subj: PERMIT TO OPERATE FOR NAVAL TRAINING CENTER FIRE FIGHTER
TRAINER

Ref: (a) Mtg w/ NTC ACOS FACILITIES/Mr. Bill Thornton (SWEFD)/
LCDR Veselenak (NTC)/Martha Gandy (NTC) of 15 May 92

1. The purpose of this letter is to request you ensure that a Permit to Operate the Fire Fighter Trainer (MILCON P-341) is granted from the Air Pollution Control District (APCD) prior to the scheduled operational date of 1 September 92.

2. We were informed during reference (a) that emissions source testing required by the APCD would probably be conducted at a similar trainer located at NTC Great Lakes during May 1992. The results of the testing would have to be submitted to and approved by the APCD prior to the issuance of an official Permit to Operate.

3. Request you provide us with a status of the progress in obtaining a Permit to Operate.
