Mr. Greg Cameron
CTO Leader, CTO-0056
Bechtel National, Inc.
401 West A Street, Suite 1000
San Diego, CA 92132

Dear Mr. Cameron:

This letter is intended to provide Bechtel National, Incorporated with the Navy's authorization to begin field operations for the Extended Site Inspection at the Inactive Landfill at Naval Training Center (NTC), San Diego. It is acknowledged that regulatory comments to the Draft Work Plan are currently being addressed, and that the field work will begin prior to obtaining regulatory approval of the Final Work Plan. This is deemed necessary because of certain constraints on field work that can be performed after April 1, 1995, which is the start of the least tern nesting season. Southwest Division, has informed the Department of Toxic Substances Control of the Navy's intention to begin the field work prior to a final approval of the Work Plan.

For any questions or concerns, contact the undersigned at (619) 532-3329.

Sincerely,

A handwritten signature in cursive script that reads "Kurt Baer".

KURT BAER
Remedial Project Manager, NTC
By direction of
the Commanding Officer
