Mr. Phillip Dyck
BRAC Environmental Coordinator
U.S. Department of the Navy
Naval Training Center Environmental Office
33502 Decatur Road, Suite 120
San Diego, California 92133-5000

Dear Mr. Dyck:

DRAFT WORKPLAN FOR EXTENDED SITE INSPECTION, INACTIVE LANDFILL, NAVAL TRAINING CENTER, SAN DIEGO

The Department of Toxic Substances Control (Department) has completed its review of the Navy's response to the Department's comments regarding the proposed cone penetrometer test (CPT)/Hydropunch investigation at the inactive landfill, Site 1, at the Naval Training Center (NTC). Based on this review, the Department approves of the start of CPT fieldwork scheduled for February 21, 1995.

During this initial stage of CPT fieldwork, Mr. Corey Walsh of the Regional Water Quality Control Board will be your point of contact if there are any questions, concerns, or changes regarding the CPT work. I will be on vacation from February 23 through March 1. Please provide Mr. Walsh a daily update of field progress at the end of each day either verbally or by fax.

The Department expects a final comment response letter addressing the remaining regulatory comments on February 22, 1995. The remaining field activities can be started after final regulatory approval of the workplan.

In the future, the Department would like at least ten days prior notification of all field work activities. Please call me at (310) 590-5563 if you have any questions or Mr. Corey Walsh at (619) 467-2980 during my absence.

Sincerely,

A handwritten signature in cursive script that reads "Alice Gimeno".

Alice Gimeno
Project Manager
Base Closure Unit-Region 4
Office of Military Facilities
