From: Commanding Officer, Engineering Field Activity, West, Naval Facilities Engineering Command

Subj: REMEDIAL INVESTIGATION/FEASIBILITY STUDY (RI/FS) FOR  
NAVAL STATION TREASURE ISLAND (NAVSTA TI)

Encl: (1) Draft Final Remedial Investigation (RI) Report For Onshore Sites dtd September 1997

1. Enclosure (1) is provided for your review and comments. Please submit your comments on or before 17 November 1997. This draft final report presents the investigation conducted at 14 installation restoration sites at Naval Station Treasure Island. The report describes the field work that was performed, the chemicals that were detected, the nature and extent of contamination, the findings of the human health and ecological risk assessments, and the fate and transport of chemicals. The draft final report contains additional information used to further evaluate some of the sites. This new information includes (1) additional quarterly groundwater data, (2) results of groundwater modeling, (3) results of ecotoxicological testing for the development of petroleum screening levels, and (4) additional soil and groundwater data from Sites 12 and 17.

2. Thank you for your guidance and involvement in this project. For further information, please call me at (650) 244-2560.
