---

Thanks Chris for following up on this. I appreciate your comment, and have also noted the Navy's response to my comment #2, and the response seems appropriate to me.

Thanks,  
Myriam

Subject: RE: Water Board comments on the Draft ROD-RAP Site 32

Hi Myriam, Keith, and Kimberly,

To provide some context on Myriam's specific comment #2 regarding potential future ecological habitat at Site 32: I've attached the sea level rise adaptation strategy figure for Treasure Island, showing certain areas which, as a contingency if SLR is greater than planned, could be adapted into tidal marshland areas. Site 32 is not one of these areas. Also, while a freshwater wetland is being considered near the future wastewater treatment plant, the development plans do not show it within Site 32. The 2011 development plan shows the wetland bordering or slightly entering Site 6, so the language in the Site 6 ROD was appropriate, but I think this is not the case for Site 32.

Please feel free to contact me with any questions or follow-up on this.

Thanks,  
Chris

Hello Keith and Kimberly:

Attached please find the Water Board's comments on the Draft Site 32 ROD/RAP. Please contact me if you wish to discuss.

Best,  
-Myriam
