**SUBJECT: TRANSMITTAL OF THE DRAFT FINAL STATUS SURVEY REPORT  
RADIOLOGICAL INVESTIGATION OF CATCH BASINS AND STORM  
DRAIN LINES ASSOCIATED WITH FORMER BUILDING 233  
RADIOLOGICAL SURVEYS AT VARIOUS AREAS, FORMER NAVAL  
STATION TREASURE ISLAND, SAN FRANCISCO, CALIFORNIA**

Enclosed for your review is the DRAFT Final Status Survey Report Radiological Investigation of Catch Basins and Storm Drain Lines Associated with Former Building 233 Radiological Surveys at Various Areas, Former Naval Station Treasure Island, San Francisco, CA.

The Navy implemented the most conservative approach to achieve the project objectives by excavating the catch basins and the connecting storm drain lines. Radiological survey data results were below the screening criteria and demonstrated the former catch basins and connecting storm drain lines are suitable for radiological release; therefore, the Navy requests a Recommendation for Radiological Unrestricted Release (RURR) letter from the State of California.

**Please provide comments or concurrence on this document no later than Friday July 15, 2016.**

Thank you for your support of this program. If you have any questions or concerns, please contact Kimberly Noble, Remedial Project Manager at (619) 524-5257, Mr. David Clark, Lead Remedial Project Manager at (619) 524-6870, or me at (619)524-6073.

Sincerely,

A handwritten signature in blue ink, appearing to read "Keith Forman", with a long horizontal line extending to the right.

KEITH FORMAN  
BRAC Environmental Coordinator
