EPA Region III
Federal Facilities Section
Attn: Mr. Henry J. Sokolowski
841 Chestnut Building
Philadelphia, PA

Gentlemen:

We are forwarding the Final Site Inspection (SI) Report Phase II for our facility, EPA ID Number MD 417 002 4109. With the submission of this report, SIs for all of the sites recommended for further study in the supplemental Preliminary Assessment (PA) Report of January 1992 have been completed. The supplemental PA and the Final Report SI (Phase I) were sent to you under cover letters 5090 Ser 0965/176 of March 24, 1992, and 5090 Ser 0965/551 of September 11, 1992, respectively.

In addition, we are forwarding the Removal Action Findings Report for Installation Restoration (IR) Site 5. You will note in the report that silver contaminated soil was removed from only the eastern swale of Building 731. The silver contaminated soil in the western swale will be removed during this fiscal year.

If you have any questions or comments concerning these reports, please contact Mr. Shawn Jorgensen of my staff on (301) 743-6745 or 6746.

Sincerely,

SUSAN P. ADAMS
Director, Environmental Division
By direction of the Commander
