Subject: **Final** Quality Assurance Project Plan Sampling and Analysis Plan for Munitions  
Response Program Site Inspection at Five Small Arms/Skeet Ranges

Dear Mr. Rail:

The **Final** QAPP Project Sampling and Analysis Plan for Munitions Response Program Site Inspection at Five Small Arms/Skeet Ranges is enclosed. The draft version was submitted to you on October 10, 2008 for regulating agency review.

The following comment was received from Mr. Dennis Orenshaw: *"I have reviewed the following document: Quality Assurance Project Plan Sampling and Analysis Plan for Munitions Response Program Site Inspection at Five Small Arms/Skeet Ranges for the Naval Support Facility at Indian Head. This document is dated October 2008. The sampling plan is in general agreement with our discussions during previous site visits and meetings. My only comment is as follows: I believe we had discussed the concept of including sampling for propellant residue in the vicinity of the firing points on some of the ranges, particularly the Marine Rifle Range. I feel this should be included."* Modifications were made to the subject SAP to address this comment. No other comments were received.

If you have any questions regarding this document or need additional copies, please contact me at 412-921-8308 or (email: [ralph.basinski@tetrattech.com](mailto:ralph.basinski@tetrattech.com)).

Sincerely,

*for*   
Ralph R. Basinski  
Project Manager
