Pittsburgh, PA 15220-2745

Dear Mr. Latulippe:

We are forwarding the minutes from the Installation Restoration (IR) Program Restoration Advisory Board (RAB) meeting that was held on Thursday, June 21, 2007 at the Indian Head Senior Center, which is located at 100 Cornwallis Square, Indian Head, Maryland.

We would like to thank everyone who attended the RAB meeting and hope to see all of you at the next RAB meeting, which is scheduled for Thursday, October 18, 2007 at the Indian Head Senior Center from 5:00 - 7:00 pm.

We are pleased to inform you that removal of contaminated soil from IR Site 28, Original Burning Ground/Zinc Recovery Furnace is scheduled to begin the week of October 22, 2007. Since the site is directly adjacent to Slavins Dock in the town of Indian Head, you will be able to view the project from outside of the Naval Support Facility, Indian Head (NSF-IH) at the Slavins Dock area. Slavins Dock is located at the end of Mattingly Avenue, which is the last street on the left just before entering NSF-IH. We have also enclosed a fact sheet describing the project for your information. Since this remediation project is highly visible from Slavins Dock and Mattawoman Creek, we ask that you inform others within the community of the work we are doing. You may direct community members who have questions, comments, and/or concerns related to the project to our Public Affairs Office, which can be reached on (540) 653-8153.

Please direct all correspondence that you may have concerning the Installation Restoration Program at our Facility to:

Naval Support Facility, Indian Head
Environmental Program Office
Attn: Jeffrey Bossart, Code N45
3972 Ward Road, Suite 101
Indian Head, MD 20640-5157
