Dear Mr. Latulippe:

We are forwarding the minutes from the Installation Restoration (IR) Program Restoration Advisory Board (RAB) meeting that was held on Thursday, February 21, 2008 at the Indian Head Senior Center, which is located at 100 Cornwallis Square, Indian Head, Maryland.

We would like to thank everyone who attended the RAB meeting and hope to see all of you at the next RAB meeting, which is scheduled for Thursday, June 19, 2008 at the Indian Head Senior Center from 5:00 - 7:00 pm.

Since our meeting, a corrected Explosive Safety Submission (ESS) has been submitted and approved for Site 28, Original Burning Ground/Zinc Recovery Furnace. Consequently, the soil removal action has resumed. The corrected ESS outlines the procedures that our contractor will use to manage and dispose of single-base propellant grains and material potentially presenting an explosive hazard (MPPEH). Soil removal and screening operations are expected to continue through July 2008.

Please direct all correspondence that you may have concerning the Installation Restoration Program (IRP) or the Munitions Response Program (MRP) at our Facility to:
