Contract Task Order JU03

**Subject: Final Proposed Plan for UXO 32 – Scrap Yard for Soil, Sediment, and Surface Water
Naval Support Facility Indian Head, Indian Head, Maryland**

Dear Mr. Rail:

Tetra Tech is pleased to submit the *Final Proposed Plan for UXO 32 – Scrap Yard for Soil, Sediment, and Surface Water, Naval Support Facility Indian Head, Indian Head, Maryland*. Comments received on the previous versions were incorporated into this final version. The public review period is July 29 through August 28, 2013, with a public meeting on August 21, 2013.

MRP Site UXO 32 was formerly IRP Site 41 until 2004. Previous Proposed Plan efforts included the groundwater medium; however, the Team decided to address groundwater as a separate operable unit. Subsequently, this Proposed Plan addresses the soil, surface water, and sediment media. The preferred alternative for soil is Land Use Controls. The Plan documents No Action for the surface water and sediment.

Enclosed is one hard copy with a PDF on CD-ROM. Additional copies were distributed as shown below (including 30 copies for the information repositories c/o Nick Carros). A copy of the transmittal letter to the Restoration Advisory Board (RAB) Members will be provided to EPA, MDE, and you as well. Please contact me at 757-466-4908 or ed.corack@tetrattech.com if you have any questions or need additional copies.

Respectfully,

Tetra Tech

Ed Corack, P.E.
Project Manager

Enclosure (1)
